CALL FOR PAPERS

ICA-SYMP 2027 is the 5th International Symposium organized by the Electrical Engineering/Electronics, Computer, Telecommunications, and Information Technology (ECTI) Association and the IEEE Control Systems Society (CSS) Thailand Chapter (IEEE Conference Record Number: 71694). The symposium is technically co-sponsored by leading organizations, including the IEEE Thailand Section, the Artificial Intelligence Association of Thailand (AIAT), and the Thailand Robotics Society (TRS). This conference serves as an international platform dedicated to presenting technological advances, launching innovative ideas, and showcasing cutting-edge research in the fields of Instrumentation, Robotics, Automation, Control, and Artificial Intelligence (AI).

Area 1: Instrument, Automation, and Control Applications

Chairs: Witchuda Thongking (KMUTT) and Napasool Wongvanich (KMITL)

- Hydraulic and pneumatic systems, MEMS and nanotechnologies, sensors, intelligent manufacturing systems, system integration, functional safety, networked systems, systems biology, traffic control, spacecraft and aircraft control, healthcare applications.

Area 2: AI, Image Processing, and Computer Vision

Chair: Somying Thainimit (KU) and Wittaya Koodtalang (KMUTNB)

- Intelligent systems, neural networks, machine learning, and pattern recognition.

Area 3: Robotics and Autonomous Vehicles

Chair: Benjamas Panomruttanarug (KMUTT) and Chakkapong Chamroon (CMU)

- Mobile robotics, unmanned vehicles, robotics manipulation, and medical and bio-robotics.

Area 4: Control Theory

Chair: Tadchanon Chuman (SSRU) and Tanagorn Jennawasin (KMUTT)

- Linear and nonlinear control theory, optimal

control, robust control, model predictive control, and hybrid control systems.

Area 5: IoT and Cyber-Physical Systems

Chair: Suwilai Phumpho (KMITL) and Suwit Kiravittaya (CU)

- Data analytics for IoT, embedded systems, Industrial IoT (IIoT), CPS applications, energy management and harvesting for IoT platforms.

Area 6: Control of Power and Energy Management Systems

Chair: Sanchai Dechanupaprittha (KU) and Chakrit panpean, (KMUTNB)

- Smart grids, microgrids, energy management systems, power systems stability, and renewable energy control.

Area 7: Artificial Intelligence Applications for Sustainability

Chairs: Natt Leelawat (CU) and Takumi Ohashi (ISCT)

- AI for climate and resilience, early warning systems, earth and society, environmental monitoring, forecasting, green intelligence, and smart cities.

Important Dates

1st Batch:		
Deadline for submission of full papers	Jul 31, 2026	
Notification of acceptance	Aug 31, 2026	
2nd Batch:		
Deadline for submission of full papers	Sep 19, 2026	
Notification of acceptance	Oct 19, 2026	
Deadline for Submission of final manuscript	Nov 20, 2026	
Deadline for early-bird registration	Nov 20, 2026	
Symposium schedule	Jan 20-22, 2027	

Paper submission

1. Authors are invited to submit original full papers in English. We accept two types of paper.

Regular papers: Papers 4-6 pages in standard IEEE two-column format only, reporting their original work and results, applications, and/or implementation in one or more of the listed areas. Accepted regular papers will be published in the proceedings and will be submitted for inclusion in the IEEE Xplore Digital Library. Acceptance will be based on quality, relevance, and originality.

Position papers: Extended abstracts 2-4 pages in conference format. It is provided for authors wishing to present a timely review of research such as case study. Accepted position paper will be published in the proceedings but will NOT be included in the IEEE Xplore Digital Library.

2. Papers must be submitted only through the submission system of the conference website.

3. At least one author of each accepted paper MUST register and present the paper at the conference in order that the paper is to be included in the program.
